Education

Florida International University (FIU) Miami, FL

Bachelor of Arts, Computer Science December 2022

- Member of Upsilon Pi Epsilon (Software Development, Game Development, and Tech Mentorship team). Hosted in-house showcases at the end of each semester to display the projects and achievements of each tech team.
- Participated in FIU Global Game Jam 2021, using Unity 2D and Visual Studios in C#. Gained experience deploying a Unity game to a web browser.
- Relevant coursework: Net-Centric Computing, Artificial Intelligence, Software Engineering, Data Structures, Systems Programming, Computer Architecture, Programming I & II, Discrete Structures, Java Programming, Database Management. Dean's List Summer/Fall 2021 & Fall 2022.

Experience

Dell Technologies Round Rock, TX

Software Engineer February 2023 –February 2025

- Developed and implemented new features for a B2B client portal with frontend and backend development utilizing C# and Angular.
- Collaborated in agile sprints, daily team stand-ups, sprint plannings, and code reviews with engineering team and product managers.
- Optimized page performance by reducing redundant requests, improving load speed, and responsiveness.
- Participated in the IT Development Program (ITDP) planning meetings that focused on business goals, AI technology, networking with industry professionals, and collaborated with various development departments across the company.

Dell Technologies Round Rock, TX

Software Engineer Intern June 2022 – August 2022

- Developed clean, maintainable code for API health checks and automated daily email reports to track API status to immediate team using C# and SMTP, which helped reduce manual monitoring.
- Provided detailed project reports and milestone updates to the team, ensuring alignment with business goals.

iD Tech Remote, FL

Tech Instructor April 2022 – June 2022

- Provided one-on-one support to elementary and high school students to debug code, develop programming projects, and build confidence in STEM.
- Designed and delivered engaging programming lessons utilizing Java and C# for programming fundamentals, and Unity for game development.

Technical Skills

- C#, Java, TypeScript, HTML, JavaScript, C++, Python, C, Angular.
